**State:** \_\_\_\_\_ **Zip:** \_\_\_\_\_

RELEASE: I voluntarily donate my blood to Cape Cod Hospital to use as necessary. I have answered all the questions accurately and I understand that my answers are important in determining my eligibility to donate blood. I understand that my blood will be tested for laboratory evidence of certain infectious agents capable of being spread through blood transfusion, including, but not limited to, HIV, hepatitis, and other clinically important agents, and that I will be informed of an abnormal result (There may be some circumstances in which some or all of this testing cannot be performed). I understand that investigational testing may be performed on my blood. If this testing indicates that I should no longer donate blood, I understand that my name will be placed on a list of indefinitely deferred donors and in some instances donor information, including test results, may be reported to state or local health departments. This procedure has been explained to me by Blood Donor Service staff. I understand that I have the opportunity to request further explanation from a physician.
