

CAPE COD HEALTHCARE

LIGHTKEEPERS PROGRAM

RECOGNIZING LOYAL SUPPORTERS EVERY HOUR OF EVERY DAY

To demonstrate our appreciation, the Cape Cod Healthcare Foundation created Lightkeepers - a donor-centered program that brings peace of mind to our benefactors and their families relative to their Cape Cod Healthcare experiences.

From physician and specialist recommendations to helping navigate our health system, a Lightkeepers Liaison will make every effort to facilitate your healthcare needs. This includes providing personal assistance during an emergency situation. Should you or a family member require immediate medical attention, a Lightkeepers Liaison will come to the emergency center at Cape Cod Hospital or Falmouth Hospital, offering support, guidance and assistance.

PERSONALIZED ATTENTION

At the heart of our Lightkeepers program is the personal relationship participants share with their Lightkeepers Liaison, who is available 24/7 to help address your individual healthcare needs.

Whether you have an emergency or scheduled care at either Cape Cod Hospital or Falmouth Hospital, your personal Lightkeepers Liaison will be available to help facilitate your hospital-based care.

COMMUNICATION AND RECOGNITION

Throughout the year, Lightkeepers will receive informational mailings from Cape Cod Healthcare and the Foundation, such as physician directories, newsletters and various special reports that cover a wide range of relevant and timely news. Lightkeepers also receive recognition in Cape Cod Healthcare publications, and on donor walls and plaques dedicated to their generosity.

HOW TO PARTICIPATE

To participate, please complete a Lightkeepers Gift Agreement and return it to the Foundation. After receipt of your signed Gift Agreement and donation, you will be given customized Lightkeepers cards and keytags with important contact information specific to your personal Lightkeepers team. All participants must also sign the Protected Health Information Authorization Form, which enables the Foundation to support you when you are a patient or present for care at a Cape Cod Healthcare facility. A copy of Cape Cod Healthcare's Notice of Privacy Practices is provided to participating Lightkeepers and is also available at www.CapeCodHealth.org.

BOB BIRMINGHAM

"As a Lightkeeper for over 15 years, I've had the privilege of watching Cape Cod Healthcare evolve. Cape Codders are truly blessed to have such a dynamic health resource close to home, ready to deliver the highest quality care in their time of greatest need." - Bob Birmingham, Former Owner & Managing Director, Steinway & Sons Piano
